THE BURLINGTON STRIKE

The cause of the great strike on the "Bur-ington" road is alleged discrimination on the ogion. 1080 is sueson against a portion of the orion of the management against a portion of the ogineers. On branches, lateral lines and less system engineers have been paid less than on the main lines. For the more important route engineers of longest experience have been selected, while the less important ones have been seeigned to engineers who have not had so long service. The sounds in the streets are criticly changed, and really painful to my ear. I was cured without medicine or surgical operation—just simply electricity, as apptied by Dr. Darrin. UNLAWFUL SHOOTING.

PORTLAND, March 2.

TO THE EDITOR OF THE OREGONIAN:

Is there to be no end to outrages by the police?

It would seem that they consider that they are superior to any law. This morning's Ourgonian contains an account of the shooting of a citizen by a policeman. Let us suppose that the man shot is a vagabond and that be used the vitest and must insuiting language, and then started to run. These, i believe, are not the policeman and them started to run. These, i believe, are not croumstance claimed by the policeman and the policeman and greater rights or suttority than a private citizen under those or suttority than a private citizen under those used to present than if any other person had been so sessuited, and if the assault was not made with a dangerous weapon it was a simple case of assault and battery, and therefore a misdemeanor and not belony.
